Post Abatement Visual Report

Client: Justin Merritt Inflector Environmental Services 196 Hobsons Lake Drive Halifax, Nova Scotia B3S 0G4	Project #: 30138 Location: Room 9 Enclosure - Bicentennial Shift: N/A Issue Date: December 2, 2022 Report #: 03
--	--

1.0 DETAILS TO BE NOTED

On December 1st, 2022, Steve Wells of ALL-TECH Environmental Services Limited (ALL-TECH) performed one (1) post-abatement inspection for Inflector Environmental Services to ensure that all asbestos containing materials had been properly abated and removed, and that proper cleaning techniques had been utilized. The post-abatement inspection was performed throughout the enclosure constructed in Room 9 of Bicentennial School located at 85 Victoria Road in Dartmouth, Nova Scotia.

2.0 POST ABATEMENT VISUAL INSPECTION

A final visual inspection was completed on the enclosure within Room 9. Upon inspection, it was confirmed that all asbestos containing materials within the scope of work had been abated and removed from the enclosure, and proper cleaning techniques were utilized in doing so.

3.0 COMMENTS/CONCLUSIONS

All asbestos containing materials associated with the ongoing abatement within the building were removed and debris cleaned before the final visual inspection was conducted. The enclosures were clean and free of dust, debris, and any loose or small hazardous materials.

If you have any questions or comments regarding the above noted results, please feel free to contact our office at your convenience.

Thank you and have a great day,
