

June 29, 2022

Families,

I am writing to share two exciting videos that will give you a glimpse into the plans – and the promise – of our new Grades 7-12 school.

The first is a “fly-by” video of the school grounds and exterior of the building, created by the architects designing our school.

The second is a peek inside five newer schools within the Halifax Regional Centre for Education. This will give you an idea of what the interior of our school could look like.

You can view each video below:

1. [New Eastern Shore Grades 7-12 School: School Design Fly-by](#)
2. [Imagine the Possibilities!](#)

Please feel free to share these videos with anyone in the community who may be interested.

As always, all updates are posted at <https://www.hrce.ca/new-eastern-shore-school>.

We'll continue to keep you updated as new information becomes available.
