

July 30, 2024

Families,

I am pleased to share that A.J. Smeltzer Junior High will receive upgrades to some sections of the school's exterior walls, as the brick façade will be replaced during the 2024-25 school year.

Work on this project has started and will continue in the fall. Please be assured that once school begins, most of the work will take place after hours to minimize any impact on learning.

We appreciate your patience and will keep you updated as work progresses.

If you have any questions or concerns, please contact HRCE Operations Services at hrceoperations@hrce.ca.

Sincerely,

Geoffrey Olsson
Coordinator, Property Services - Maintenance
Halifax Regional Centre for Education
