Clarifications:

1. Industry standard for measurement of saw cutting, concrete curbs and asphalt curbs is by the linear meter (m) not by the square meter (m2). Can the price form be revised for these items to reflect this?

Response: Appendix C is revised to reflect the change in measurement.
Please download the new Appendix C – Price form from the website.

2. Is the cost of labour from items I. – XIII. to be excluded from those unit prices?

Response: Yes, Please exclude.

3. Items XIV. And XV. Only references Cement/concrete finisher and helper/labourer, it doesn't reference payment for individuals working with asphalt, granular, excavation and landscaping works.

Response: If there is a price difference, please include separately.
An additional Comments cell is included.

4. Is the hourly rate for helper/labour for each individual or a total hourly rate for all helpers/labourers on the crew?
